

Verizon Seeks Talks with East Unions

Today, Verizon notified the Communications Workers of America and the International Brotherhood of Electrical Workers in the Northeast, Mid-Atlantic and Potomac areas that we are declaring a surplus of approximately 12,000 employees across those three areas. This reduction is in line with the company's business plans. The move is part of the company's ongoing efforts to realign its overall cost structure and remain competitive.

As we work through this surplus declaration, the company will explore with the unions ways to encourage eligible union-represented East employees to voluntarily leave the business.
